Hello everyone

We have noticed the public server of UpStage may have been down for 2 days.  
[www.upstage.org.nz](http://www.upstage.org.nz) is not loaded properly.

We wonder if there was a maintenance scheduled during this period??

Sincerely  
Yue

Cheers from the AUT UpStage team

Hey guys,

Haven't been informed of a scheduled outage.

Will have a dig

-Paul

thanks Yue!

we have not received notice of a maintenance schedule  
i can ring citylink on monday and follow up if its still down by then

i wonder if paul is doing something with setting up the new web site? since it is only the web site that isn't functioning - the actual UpStage instances are still working.

it seems to be that the domain is not resolving in the way that it used to, because <http://www.upstage.org.nz> keeps trying to go to <http://www.upstage.org.nz/blog>, whereas previously <http://www.upstage.org.nz> should go to the temporary index page. i last updated this page on 23 february & it was working then.

paul - can you shed any light on the situation?

h : )
