Hi Anne,
Happy new year!

I've done some research on:
-understanding the current implementation
-NPAPI depercation
-IDE development
-HTML5 stack candidates (mainly in Nodejs, bootstrap, JQuery, EJS(Emmbeded -JavaScript template) and JSON package management).

Charlotte and Gaoxin have been busy working over the holiday. Wonder if I can make an appointment with you in the next few weeks? (I will be available anytime).

I will send you a document regarding the research I have been working on prior to our appointment.

Sincerely
Yue

Cheers from the AUT UpStage team

Hi Team,

Yes it would be good to catch up with what work has been done and the state of the current software.

Can you please indicate if you have constraints on the days and times you could make a meeting in February so that we can find a suitable shared time.

Cheers,

Anne

Hi Anne,

I have checked with Charlotte and Gaoxin.

The best option for us will be on Feb 16. We will be available anytime on the day.

Cheers
Yue

Sorry Team,

I am at an offsite planning meeting all on February 16th & 17th.

Any other options? Might be an idea to suggest more than one as I am getting very booked up.

Cheers,

Anne

To: Anne Philpott <anne.philpott@aut.ac.nz>

Hi Anne,

We will be available on February 10-13, 16-18, and 23-27.

I'm currently away from Auckland between Feb 4 - 8. I will be back on the 10th.
Gaoxin confirmed he will be available for the meeting as he can ask for a leave for the time.
Charlotte's been working on a roasted basis. She will need to swap shifts with other people at work; therefore,

she may not be able to attend the meeting.

In case of Charlotte's absence, we will use our meeting notes to fill her in, and discuss our tasks via our Facebook group page.

The main topics will be:
Current project status
Prioritise the research on Flash replacement
Discuss our findings
Discuss specific tasks prior to Project Mid-semester Review

Thanks
Yue

Cheers from the AUT UpStage team
