Hi everyone

A reminder of our meeting on May 13.

I have updated a detailed instruction/explanation of dependencies installation on UpStage Repo Wiki.

Still missing information for UpStage deployment via Ant targets.

Please let us know if there anything we can improve.

Cheers from the AUT UpStage team

hi team,
thanks for the reminder - 8pm nz time, in case anyone's forgotten. we don't have 8083 up and running yet so
will it be ok to meet on the AUT server again?

could you please email the dev list with a brief summary of what you've done with the installation info, & ask
about the missing info? martin might respond ... & it would be great if you have time to do a quick post on
the developer blog about it too (your last post there was in march).

see you tomorrow,
h :)

Hi everyone,

AUT UpStage server on 8081 will be available for our meeting.

We have got all the information about Ant Target, and we will update the details this week.
We also will schedule our weekly tasks for the remainder of this semester.

Below are the details of 8081:

http://upstage.aut.ac.nz:8081
User credentials are the same as our last meeting.

Cheers
Yue

Cheers from the AUT UpStage team
